

Purpose and aims

1. This Service Level Agreement (SLA) is to provide a governance structure for NRPF Connect users to enable a framework for the Home Office and local authorities to review progress, maintain joint monitoring arrangements and assess performance in operating the database. Any arising areas of concern will be considered by the NRPF Network and the Home Office Local Authority Partnership and Referral Interventions Tracker Team (RITT) managers.
2. This Service Level Agreement:
 - 2.1. addresses the provision of services by one party to another
 - 2.2. sets performance requirements to which those services must be provided
 - 2.3. details how the provision of services, in line with agreed levels, can be monitored for consistency
 - 2.4. makes clear the processes, responsibilities and timescales for responses and actions for each key user
3. Performance will be monitored quarterly and results reported back to a joint local authority and Home Office governance group called the 'NRPF Steering Group'. The NRPF Steering Group has been set-up with the support of the Department of Communities and Local Government (DCLG) to ensure that measures taken to address NRPF service provision are effective.
